

Campground Master™

Reservation Management Software for Campgrounds and RV Resorts

Campground Master can dramatically simplify the task of reservation management for any campground or RV resort. Campground Master is designed to be fast and easy to use for both large and small campgrounds, while supporting all of the features expected in a reservation management system. It makes the transition from paper-based reservations to a computerized system as quick and painless as possible, so you'll save time and money immediately.

Dynamic Interactive Report tabs present the information you need most – instantly!

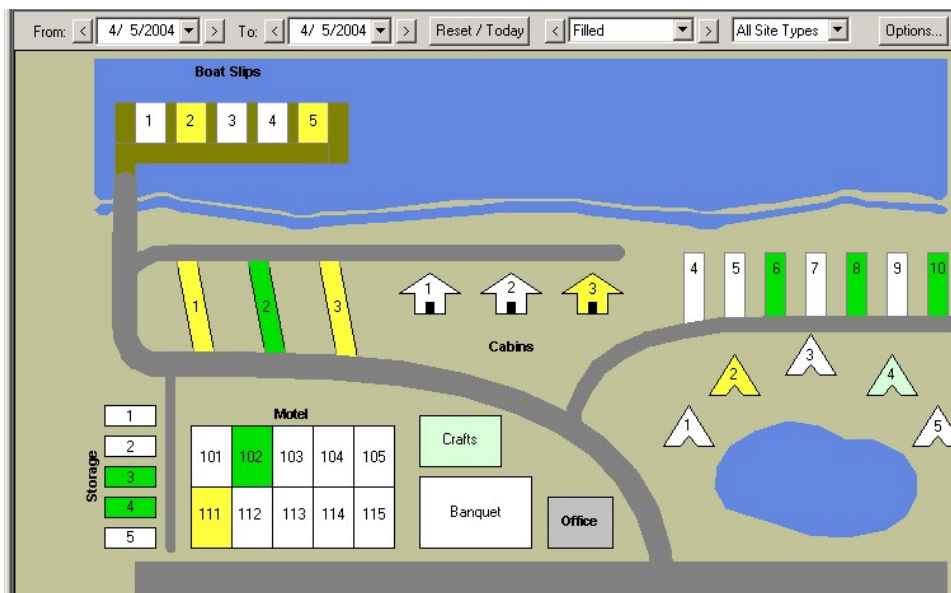

The screenshot shows the Campground Master software interface. The title bar reads "Campground Master (tm) - Database: demo * *** DEMO VERSION *** Operator: Administrator". The menu bar includes File, Reservations, Customers, Transactions, Reports, Maintenance, View, Log In/Out, and Help. Below the menu bar is a toolbar with icons for various functions. The main window displays a report grid with columns for Site, Type, and dates from Tuesday, Jan 28, 2003, to Friday, Feb 7, 2003. The grid shows reservations for sites 1 through 7, with names like Jones, Alton, Yeoman, Smith, and Harvey. The interface also includes a navigation bar with tabs for Rack, Arrivals, Departures, On Site, Unassigned, Non-Reserved, Payments Due, and Transactions. A search bar at the top of the grid allows filtering by date range and site types.

Site	Type	Tue Jan 28 2003	Wed Jan 29 2003	Thu Jan 30 2003	Fri Jan 31 2003	Sat Feb 1 2003	Sun Feb 2 2003	Mon Feb 3 2003	Tue Feb 4 2003	Wed Feb 5 2003	Thu Feb 6 2003	Fri Feb 7 2003	Sat Feb 8 2003	Sun Feb 9 2003	Fe 21
1	RVDx		Jones	Jones	Jones	Jones	Jones	Jones	Jones	Jones	Jones	Jones	Jones	Jones	Jon
2	RVDx	Alton	Alton	Alton	Alton	Alton	Alton	Alton	Alton	Alton			Bailey	Bailey	Bail
3	RVDx	Yeoman			Yeoman	Yeoman	Yeoman	Yeoman	Yeoman				Bailey	Bailey	Bail
4	RV	Smith	Smith	Smith	Smith	Smith	Smith	Smith	Smith	Smith	Smith	Smith	Bailey	Bailey	Bail
5	RV												Bailey	Bailey	Bail
6	RV	Harvey	Harvey	Harvey	Harvey	Harvey	Harvey	Harvey	Harvey	Harvey	Harvey		Bailey	Bailey	Bail
7	RV		Johnson	Johnson	Johnson	Johnson							Bailey	Bailey	Bail

- Easy to use and learn – most campgrounds can be up and running within a day.
- Extremely flexible database supports any type of rentable space or items, custom transaction categories, etc.
- Reports are available with a single click, and any report can be printed as-is or with formatting options.
- Professional printed receipts for your customers (no more expensive pre-printed hand-completed forms!)
- Real-time integration with *Hercules* for online reservations (take reservations on your web site).
- Quick-start guide with tutorials, plus the entire user manual is also available as in-program help (just press F1).

Dynamic Map View with form-fitting "fill" indicators

Campground Master supports interactive maps that you design and update yourself. You can use any image you want for your maps -- scan it from a brochure or an aerial photo of your park, or draw it from scratch using your favorite image editor. Use your imagination!

Colors show what sites are occupied, reserved, open now, or leaving today.

Double-click on any empty site to make an instant reservation.

See who's on a site by just moving the mouse cursor over it.

Right-click on a site to access all of the context functions.

Check availability for any date range, and select individual site types to black out inappropriate sites.

Perform check-ins, check-outs, changes, cancellations, and any other function directly from the map.

More on the other side! →

Context-sensitive menus place all of the functions you use every day just a click away

"Context-sensitive" means that you just right-click on the reservation you are interested in, and all possible functions for that reservation will be just one click away.

View any of the details you need – reservation, customer, transactions, or site.

Perform check-ins, check-outs, cancellations, and any other function easily.

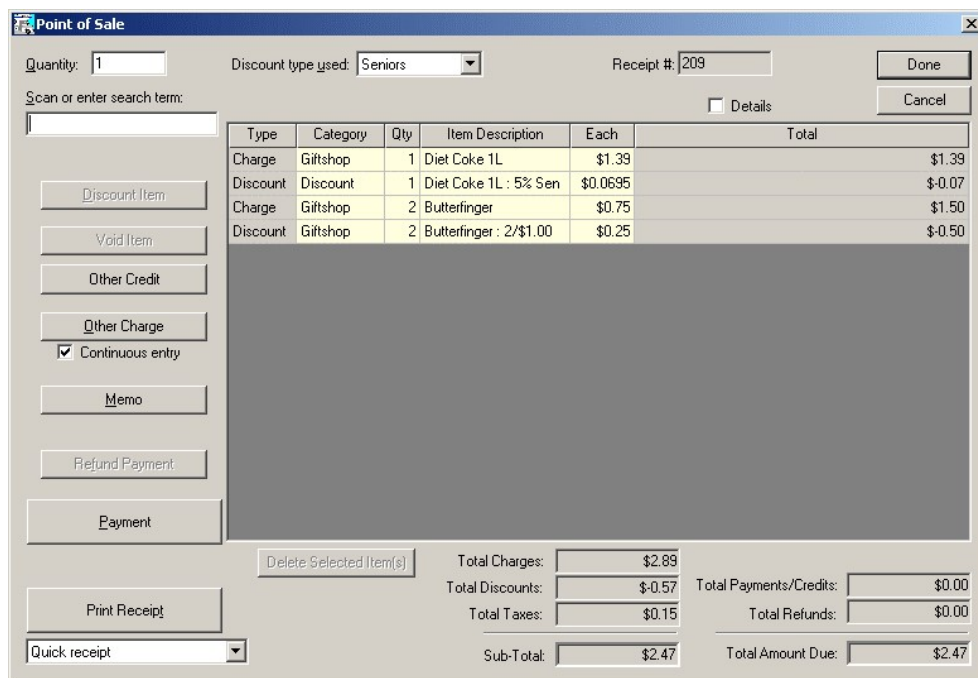

Change sites, adjust dates, and make additional reservations visually.

Double-click on any empty site, on your map or on the rack, to make a new reservation for that site for the selected dates.

Point of Sale (P.O.S.) option allows rapid counter sales with bar-code scanning

Use the P.O.S. system to take the place of a cash register and to provide inventory tracking functions.

Perfect for use in a store or registration office check-out counter where merchandise is sold. Saves space by replacing a separate cash register, and eliminates separate receipts. Integrated credit card processing also replaces a separate terminal and printer, simplifying reporting chores and reducing mistakes.

Cash-register-like interface for entering sales rapidly.

No limit to the number of inventory items, with bar coding or text lookup.

Supports common hardware like pole displays, cash drawers, mag strip readers, and receipt printers.

Automatic discounting based on numerous conditions.

Combine merchandise with reservation charges, or add to the customer's account.

Recall previous receipts for easy item returns and refunds.

Reminds you if inventory is low.

Print purchase orders to re-order low inventory automatically.

Call or E-mail today for more information!

System requirements: Windows XP, Vista or Windows 7 through 10 with at least 50 MB free hard disk space, 4GB RAM.

Price: Only **\$795**, for any number of campsites or rooms (up to 30,000 sites can be supported in one database).
